CALL FOR PAPERS

2019 Conference Theme: MOBILITY FRONTIERS

The Tire Society welcomes Interested individuals to its 38th Annual Tire Science and Technology Meeting and Conference - the scientific professional organization for the tire industry.

This annual meeting is a forum for researchers, users, policymakers, students and advocates to learn about innovations that will drive our industry in years ahead. By effectively communicating our knowledge and research we can change practices and policies at all levels. The conference will include:

- A Keynote address by an industry leader
- A Plenary lecture by a recognized technical expert, addressing the implementation of technology and science
- Panel discussions,
- Technical paper presentations,
- Networking opportunities

Students and Young Professionals – You Are Our Future! The TST Annual Meeting provides unique opportunities to gain experience, develop leadership skills, and network with people who share your professional passion. We encourage students and young professionals to submit proposals. The best paper submitted by a full-time university student will receive a cash prize. More information on the Student Paper requirements and submission process are on our Website [here](#).

Papers are being accepted in the following areas:

Tire Industry Trends

Regulations & Standards, Autonomous/Shared Vehicles, Next Generation Mobility, Sustainable Material Sourcing

Tire Materials

Polymers, Cords, Steel, Green & Cured Rubber, Material Characterization Tire Lifecycle

Emerging Technologies

Smart Tires, RFID, Sensors, Tire Electronics, Non-pneumatic Tires

Tire/Vehicle/ Road Systems

Vehicle Dynamics and Stability, Ride, Harshness, Noise, Wear, Rollover, Pull, Uniformity, Friction, Tire Effects on Pavement

Tire Performance

Durability, Rolling Resistance, F&M, Simulation, Testing, Tire Design

Tire Manufacturing

Advances in Established and Emerging Methods, Simulation

Data Analytics and “Big Data”

Tire/Vehicle Performance, Materials/Lab Data, Simulation Results, Manufacturing Processes and Intelligent Factory

Virtual Design

Constitutive Models, Tire Modeling and Model Characterization, Virtual Prototyping, Advancements in Tools and Techniques

Proposal Formats

Individual Paper and Oral Presentation: Individuals or small groups of authors are encouraged to submit abstract proposals for papers whose content could be conveyed in **15-20 minutes** (including a question/answer period). *Paper presentations will be grouped into sessions with a common topic or theme.* The Tire Society will provide a moderator for each session.

Generally, presenters are expected to also submit a technical paper for publication in the refereed Tire Science and Technology journal. In special cases, oral-only presentations may be accepted. Please contact the program chairmen if it is necessary to make special arrangements.

Panel Presentation (new for 2019): Small groups of authors are encouraged to submit 2-4 distinct but thematically linked presentation proposals as part of a panel discussion session. Presentations would be 5-10 minutes each, followed by a discussion among the panel and a Q&A with the audience. Panel presentations will be reviewed as a group. The Tire Society will provide a moderator for each session.

Poster Presentation: Individuals or groups of authors are encouraged to submit proposals for interactive poster presentations in which they will discuss their work with conference participants. Poster proposals will also be peer-reviewed.

Abstract Submission Deadline April 30, 2019

Paper Submission Deadline July 1, 2019

Individual Paper, Oral and Poster Presentations: Abstract submittal instructions:

Step 1: Fill out and sign the - [Transfer of Copyright Agreement](#). This can be signed electronically.

Step 2: Ensure that the Abstract is at least 200 words and meets the style conventions found in the [example](#)

Step 3: Email the Abstract and the Transfer of Copyright Agreement to conference@tiresociety.org.

More information for Authors, including Manuscript Submission and Speaker Information can be found [here](#).

For a Panel Presentation, the submission should include:

- Title of your session - the title should reflect the overall theme of this panel
- Desired presentation type (Panel) please note that selecting this option, does not guarantee that your proposal will be accepted as a panel. The Tire Society reserves the right to reorganize the panels.
- Authors (full names, degrees, affiliation)
- Titles and abstracts of individual presentations in this panel (e.g., three brief abstracts) The entire proposal cannot exceed 500 words.

More information for the conference can be found by visiting the 2019 Conference Website [here](#).

Conference Information

The Tire Society is hosting its 38th annual Business Meeting and Conference on Tire Science and Technology, September 10-11, 2019, at the Akron-Fairlawn Hilton in Akron, Ohio, USA.
